

Achieve maximum filing efficiency through colour coding and automated label printing

Use a colour coding system that matches existing folders, or create your own

Easily create templates incorporating Text, alpha, numbers and colour flashes by modifying the size to fit the label

Use bar-coding for file tracking

Add colour coded year labels

Print Front page Title Labels at the same time

To improve the efficiency of your organisation with your own computerised labelling system.

Print C-Ezi enables you to quickly and easily produce high quality strips using your windows PC and any standard colour printer.

Whether you print one label at a time, need label design capability, or require label printing at multiple locations, this is the system for you.

- Easy to use
- The overall savings are up to 70%
- **One system does it all** – end tab, top tab, lever arch and storage box labelling, as well as front cover title label.
- Ensures accurate placement.
- Eliminates all individual labelling - saving you time and money.
- Provides a professional and consistent look.
- All colours are key lined black - Easier to read.
- Import data for easy conversions
- Prints up to 5 full length strips and front Title Cover Labels per sheet.
- Site or Single License Available
